

Assignment 1a
Eyewear Design – Parametric Sketch

Due: Weds 9/24

1. Register for the course or send a passport-style photo to Scott Summit by 9/23.
2. Do a little more thinking about what makes good eyewear in terms of function and aesthetics. Come up with 10 geometric parameters which characterize good eyewear (5 functional / 5 aesthetically driven). Sketch some generic eyewear and annotate the sketch with the chosen parameters. Come prepared to discuss why you chose these parameters.
